

K-Love and Air-One are the only christian stations that I can receive in my area. They provide great wealth of enjoyment and information for my daughter and myself. She enjoys the music and I don't have to worry about what she is listening to. I often learn about events that are going on in the area like Promise Keepers and concerts. I enjoy listening to the news on my way home from work in the morning I get caught up on everything that I missed while I was at work. K-Love is one of the few positive stations that you can tune to in this area. It would be a devastating loss for us to lose this station.

Thank you for your time

James Woodward
